The compact design of the Waterco spa blower enables installation in smaller areas and tight corners. The

convenient position of the mounting base and air inlet/outlets reduces installation time and cost.

All Waterco spa blowers feature a most important in-built safety feature, an integral thermal cutout. This cutout stops the electric motor if it becomes excessively warm. This cutout does not require manual resetting and will automatically restart the motor when it is sufficiently cooled. Waterco blowers are covered by a comprehensive 12 month warranty
