**E550**

Price per Unit (piece): [Call for Pricing](#)

Close control of velocity and hydraulic balance of internals with **non-clog laterals** results in improved filtration and back-wash performance.

A **clamp-on multi-port valve** ensures positive fitting and alignment of pipe work, minimising installation time with no special tools required

The 6-way multi-port valve provided with each system has been proven on thousands of installations with port arrangement positioned to achieve simple plumbing connection.

The **automatic internal air venting** system eliminates air and saves time during start-up and service. The Eco Sandfilter is available in 2 sizes and come complete with **multi-port valve, pressure gauge, barrel unions** and **backwash sight glass**.
