Monarch Clearflow P4 / 150

Price per Unit (piece): AUD \$560.00 (including 10 % tax)

The heavy duty lock ring enables simple removal of the cartridge element from the filter tank for periodic cleaning eliminating the need for backwashing of the filtration system.

P4 Cartridge Filter Features:

- **Compact, low profile UV resistant tank**
- **Easy access to cartridge element via heavy duty lock ring.**
- **Auto pressure release preventing damage to pump and filter should filter become blocked**
- **Quick connect 40-50mm barrel unions for ease of plumbing**
- **Auto air bleed for removal of trapped air inside filter eliminating the need for manual bleeding**
- **No backwashing of filter required**
- **Suitable for all pools and spas, fresh or salt water**
- **Standard high quality oil-filled pressure gauge for inspection of operating pressure**
- **No additional powder additives to worry about**
- **4 inlet/outlet ports for simple installation**
